## 2 DECISIONS MADE

Reference/Procedure	Proposal
<u>17/00858/FUL</u> Southbourne Parish  Case Officer: Paul Hunt  <b>Written Representation</b>	Marsh Farm Farm Lane Nutbourne PO18 8SA – alterations to approved garage (application SB/16/03112/FUL) to connect it to the new proposed pool cover.
<b>Appeal Decision: APPEAL ALLOWED</b>	

“...The proposed development would be associated with and detached from a new two storey dwelling currently under construction a short distance to the west and within a large overall plot. It would occupy a large part of the space currently enclosed by a wall of varying height. It would replace large sections of the eastern and northern parts of that wall, aligned with that remaining to the east and straddling that to the north, whereas the previously approved garage would just extend to the north of it. The proposal would extend noticeably higher than the existing wall enclosing the existing pool area. Although it would have a fairly large footprint in the context of being an ancillary outbuilding relating to the main dwelling, it would be of a fairly simple design with shallow pitched or mono-pitched roof slopes. It would therefore have a fairly modest height to both eaves and ridge level, particularly compared with the main dwelling. It would also be lower in height than a fairly large nearby outbuilding associated with the new dwelling just to its south-east with a steeply pitched roof. ... For these reasons, the proposal would not only be closely tied to and set within the context of a cluster of other existing buildings, but it would be less prominent than those others in terms of height and have a sufficiently subservient appearance in relation to the main dwelling. ... Furthermore, due to its comfortable containment within the existing site boundaries and proximity to existing buildings, the proposal would not materially encroach upon, and would be distinctly separated from, the openness of the surrounding fields and harbour. ... The proposal would therefore not be a dominating or incongruous feature of the site and surrounding area generally, and would be unlikely to appear as part of an overly domestic complex of buildings. For the above reasons, the proposed development would not cause unacceptable harm to the character and appearance of the site and surrounding area, and would conserve the landscape and scenic beauty of the AONB. As such, it would accord with policies 33, 43, 45 and 48 of the Chichester Local Plan: Key Policies, policies 4 and 7 of the Southbourne Parish Neighbourhood Plan (2014-2029), and the SPD. ... The Council has suggested five conditions that it considers would be appropriate were I minded to allow the appeal. I have considered these in the light of advice in the Government’s Planning Practice Guidance and amended some of the wording. ... For the above reasons, I conclude that the appeal should be allowed.”

SDNP/15/00109/OPDEV  
Stedham Parish

Case Officer: Reg Hawks

**Written Representation**

Field South of The Old Stables Mill Lane  
Stedham Midhurst West Sussex GU29 0PR - Without planning permission, formation of a hardsurfaced access track. Appeal against Enforcement Notice SJ/25.

**Appeal Decision: DISMISSED – NOTICE UPHELD WITH VARIATION**

The appeal is dismissed and the enforcement notice is upheld with variation... There appears to be no dispute that the track was upgraded in early 2015, when two lines of granite setts were laid on a concrete sub-base. The central part of the track within the edging has been infilled with pea shingle laid on a membrane....It is this upgraded track that is the subject of the appeal before me... The main issue is the effect of the track on the character and statutory purposes of the National Park...

*Need*

I acknowledge that the land appears to be soft...Notwithstanding this, given the all-terrain vehicles available to the appellant, the limited size of the holding and low numbers of animals, I find the argument of an essential or functional need for a hard surfaced track to be used solely for agricultural purposes lacks cogency. I therefore give it little weight.

*Visual effect*

...the urban character and form of the track is incongruous at best. It is a feature that appears totally incongruous and inappropriate in this gentle countryside setting which is characterised by rolling farmland and a rural informality.

...I acknowledge the visibility of the track in the wider countryside is not significant, but this does not outweigh the harm that arises to the natural beauty of the National Park... Thus the development conflicts with the aims of Saved Policies RE1 and BE11 of the Chichester District Council Local Plan First Review 1999 (CDCLP)... Thus the appeal fails..."
