

Thank you for your feedback and providing us with an insight into your concerns surrounding our recent event application for Pub in the Park.

We have thoroughly read through your comments and please take this letter as a formal response to your representation.

The following are actions that Pub in the Park will undertake to alleviate the early operational concerns surrounding the event:

➤ **Noise Disturbance**

- Pub in the Park has appointed Joynes & Nash as our noise management consultant. The company is a leading consultancy for the live events industry. They have extensive experience of live music events and a proven track record of working with event organisers to enhance the audience's experience, whilst preserving the image of events and venues. They consider despite the many technical challenges' events bring, that relationships between all interested parties are of paramount importance.
- Joynes Nash have independently produced a noise management strategy that is a live document and will evolve alongside the site plans, feedback from the Safety Advisory Group and the Environmental Protection Officer.
- Joynes & Nash will have an on-site consultant throughout the live event days who will be constantly monitoring the noise levels from the front of house desk supported by static receptors in locations that will be agreed once the final stage position has been agreed with the Environmental Protection Officer.
- Joynes & Nash proactively monitors noise levels in accordance with NMP or in response to complaints to determine compliance with Licence or determine whether Public Nuisance exists.

➤ **Traffic Congestion**

- Pub in the Park has contracted Alpha Event Traffic Solution as our traffic management consultant.
- Alpha Event Traffic Solutions have independently produced a robust traffic management plan that will address, Production, Exhibitor and Visitor access and parking. This TMP will be a live document which will be updated following feedback from the safety advisory group.

➤ **COVID – 19**

- We are developing a robust COVID-19 plan that encourages social distancing in all elements of the event; build, show and break. This will be scrutinised by the local council before being signed off and will evolve alongside central government advice. This includes increasing the footprint of the event and reducing the total number of visitors onsite to allow for social distancing

➤ **Alcohol**

- Brand Events Brand Events TM Ltd are committed to ensuring that a safe environment is created for both working personnel and patrons attending the Pub in the Park event. To this end, a Responsible Alcohol Policy has been produced.
- In line with licensing legislation and as alcohol is being served and sold on site, the organisers promote compliance from all participants on site.
- All participants selling alcohol for consumption on site are aware of this policy.
- Any participant not operating in line with the policy may be asked to leave site and / or jeopardise their participation in the event.

➤ **Local businesses**

- We are in discussion with the BID and other local Chichester businesses and we will work closely with these organisations to ensure we don't disrupt their day-to-day running.
- We offer a variety of stand sizes and pitch fees to be part of the event in the hope that we encourage a range of exhibitors and brands to join us over the weekend.

We hope that this addresses your initial concerns about the event. Please be assured that we will endeavour to work with all park stakeholders to deliver an event that will cause as little disruption as possible. We are happy to arrange further face to face meetings to address individual concerns.

Please don't hesitate to contact us with anything further.

Best Regards,

Pub in the Park Operations Team
