Commenter Type: Member of Public

Stance: Customer objects to the Licensing Application

Comment Reasons:

Comment:07/04/2021 9:23 AM Dear Sir/Madam,

We moved into Wheelwrights some 5 months ago, and in these 5 months have had serious issues with Fernden Lane traffic and the vehicles that use it. This is now under threat of increasing due to the new Application.

Apart from delivery drivers speeding now a narrow, 6 foot lane, at 60MPH, we have numerous heavy lorries getting stuck on the lane with no place to turn around. we have already experienced three stuck lorries outside our own house, where the lorry has nowhere to go, and queues of cars on either side getting very frustrated. Not only is this a serious degradation to our way of life, it is also downright dangerous for the many cyclists and walkers we get on the Lane.

The lane is rapidly deteriorating both visibly and physically, and cannot and should not support an ever increasing volume of traffic generated by new builds and businesses in the area. not only is this an egregious disturbance to the local residents, the environmental deterioration of the lane and the National Park is evident everywhere with huge muddy ruts on the sides of the lane, litter everywhere and enormous potholes caused by the heavy traffic.

We chose to live in a national park accepting the fact that we would have many restrictions on ourselves as private residents, but were not prepared for the ever increasing freedoms being offered to traffic and new builds in the Park.
